YELLOWSTONE PARK EXCUR-

August 4.

Round trip from Salt Lake only \$49.50. This covers all necessary rail and stage transportation, and hotel expenses beyond Monida, for the seven-days tour. The party will be limited to 50 persons. See Short Line agents for further particulars, and ask for illustrated folder of the Park.

ROPS ARE STILL MOVING SLOWLY

ilar Wheat Is Still in Evidence-New Plums Come From

Crops are not moving so fast as was expected they would some weeks ago. Very ittic wheat has come into the city as yet, and only one carload of barley, while this year's oats have not made their appearance at all so far. Some thirty carloads of wheat were bought up in the Cache valley district last week, but these will all straight to the coast, where Utah wheat is much in demand to mix up with Colifornis grain, for milling purposes. There is not enough gluten in the California product to make good bread, so Utah farmers are largely called on to make good the deficiency. Prices are ac-

make good the deficiency. Prices are accordingly stationary for another week.

Some very fine idaho plums were seen in Salt Lake stores yesterday. They are what are known as the peach plum, large in size and of a very good flavor. They are selling at the same price as the California fruit. Peaches are now very plentiful and cheap.

Raspberries will be practically out of the market for this year by the end of the week. Some small consignments will be received for a few days after that, but the season is getting late for this fruit.

Grain and Provisions

Grain and Provisions

CHICAGO. Aug. 1.—Higher prices in foreign grain markets, with additional damage reports from the Northwest, caused strength in wheat here today. At the close the September option was unless. Corn is off like. Outs are down 3.5 lice, and provisions are 5c up.

A feeling of besitancy was manifested in the wheat pit when trading began to drag. September quoting at 1.50 lower to a shade higher, at 3i to 50.5 lice, lower to a shade higher, at 3i to 50.5 lice, two weeks were viewed by many traders as having reached the zenith. The feeling in the pit was for the first few minutes somewhat unsettled. Foreign markets, however, were extremely strong and prices for wheat at Liverpool were up compared with hist night's close.

Advices from the Northwest were a repetition of the builtsh news received from that section during the past week. Before the end of the first half hour there built influences had started an active general demand for wheat that resulted in a quick advance. September selling up to 5% c. The strength of the cash market here, as well as in all outside markets, had considerable influence At one time No. 1 Northern sold here at \$1.06. Toward the middle of the session sculingur veeted to the hear side, and the market was subjected to heavy liquidation; resulting in a quick decline.

jected to heavy liquidation, resulting in a quick decline.
The cause of this selling pressure was a statement by a local crop statistician that the reports of damage of rust in the Northwest were largely exaggerated. September broke to \$35. On active covering by shorts much of the less was regained within the last few minutes of trading, the market closing firm, with September at 9454945c.
Clearances of wheat and flour were equal to 20,000 bushels. Primary receipts were \$15,500 bushels. Compared with \$87,200 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 178 cars, against 219 cars last week and 261 a year ago.

against 219 cars last week and 261 a year ago.

Heavy liquidation of September delivery by an influential commission house caused weakness in the corn market. The market closed weak with prices near the low point. September opened 4,604 to 3,46 bic lower at 524 to 55,6 sold down to 515c, and closed at 513,605 fig. Local receipts were 118 cars, with 5 of contract grade.

The action of corn was the dominating influence in the oats market, although favorable crop advices and prospects of increasing receipts helped to induce liberal profit-taking. September opened 5c lower to 34c and closed at 24,635 fig. Local receipts were 90 cars.

Provisions were firm during the early part of the session on buying by local shorts, but selling credited to packers caused an easier feeling. Higher prices at the yards were responsible for the improved tone at the start. The market closed easier, with September pork and lard each down 5c at 512,535 and 48.90, respectively. Ribs were a shade lower at 57,525.

Estimated receipts for tomorrow wheat, 197 cars, corn, 217 cars, oats, 208 cars, longs, 12,000 head.
